

## The AORN Syntegrity Procedure List

**Standardize your OR communication and streamline your facility's efficiencies while enhancing patient safety and quality by using standardized procedure names, aliases, and code set mappings.**

AORN Syntegrity® Procedure List is a library of 2,600+ surgical procedures, all of which are referenced to CPT® ICD- 10-PCS and SNOMED-CT® codes. The use of the procedure list helps ensure more accurate searches for scheduling procedures, standardized communication, and preauthorization assistance that can save your organization time, improve your reimbursement processes, and enhance patient safety.

Designed and built by perioperative clinicians, the Procedure List will increase your efficiencies and improve your search capabilities while enhancing quality.

## The AORN Syntegrity Procedure List will improve your facility's efficiencies by:

- ✓ Easily searching procedures using our standardized procedure names, aliases, and code set mappings
- ✓ Ensuring the correct supplies, equipment and resources are available
- ✓ Mapping procedures to Medicare inpatient and ASC-only codes
- ✓ Standardizing communication and workflows for scheduling surgical procedures
- ✓ Confirming correct procedures are pre-authorized using the associated code sets

---

Give your surgical team the tools they need to contribute to improved patient outcomes and increase facility profits by:

- Standardizing communications
- Enhancing patient safety
- Improving scheduling search capabilities
- Ensuring procedures are performed in the correct setting
- Lowering costs
